

HOUSE OF ROHL
PRESENTS
Riobel

LUXURY DESIGNED TO BE LIVED WITH

Originating in Quebec, Riobel® combines European panache with North American flair for a confident and creative style with effortless edge and spirited simplicity. Symmetry is key to thoughtful creations with geometric shapes and architectural angles, rounded arcs and inspired finishes, all of which are not just artistic choices, but made to enhance performance as well. Design and engineering work hand in hand, and come together brilliantly through imagination, innovation, and ingenuity. The latest technologies and patented systems are enabled by beautiful design, and vice versa. With award-winning collections that will be as true tomorrow as they are today, and the most advanced performance, Riobel® is luxury designed to be lived with.

CICLO

La modernité a un nouveau nom : Ciclo, une collection pour salles d'eau au panache contemporain. Sur le plan technique, Ciclo allie parfaitement forme et fonction, avec un seul cylindre qui contient la cartouche, le siège et le distributeur, pour un look innovant et épuré. Pas étonnant que la collection Ciclo ait remporté de nombreux prix récompensant son design.

Modernity has a new name: Ciclo, a collection designed for powder rooms with contemporary panache. Its technical brilliance brings together shape and substance, with a single cylinder that holds the cartridge, seat and manifold, for an innovative, streamlined look. No wonder Ciclo has won so many prizes rewarding its design.

CS

Une silhouette traditionnelle rehaussée d'un style épuré qui rappelle la pompe à eau d'autrefois : la collection CS modernise des éléments familiers avec une approche à la fois minimaliste et sophistiquée, et un design réfléchi. Une technologie de pointe assure sa fiabilité, sa durabilité et un fonctionnement optimal. Cette collection s'adapte parfaitement aux environnements industriels urbains, ainsi qu'aux salles de bain de style transitionnel ou moderne.

A traditional shape in a contemporary streamlined style echoes the iconic look of a classic water pump. The CS collection takes familiar elements and modernizes them with minimalist sophisticated, clean lines, and thoughtful design. State-of-the-art technology provides reliability, durability and superb functionality. Perfect for urban industrial settings, transitional and modern bathrooms.

EDGE

La collection de robinets Edge est unique : caractérisée par une base et un bec évasés, dont les courbes rappellent les pétales d'une fleur, cette collection aux formes contemporaines agrémentée d'une touche traditionnelle représente un choix polyvalent pour les salles de bain modernes, transitionnelles et classiques. Grâce à l'expertise technique de Riobel, elle offre une durabilité et un fonctionnement incomparables.

The main distinction of the Edge faucet collection is a unique design element: a subtle trumpet-shaped tip and base, suggestive of a blossoming flower. Taking a contemporary shape and giving it a slight traditional twist makes this collection a versatile choice for modern, transitional and even more classically styled bathrooms. With Riobel's engineering expertise, the Edge provides lasting durability and brilliant performance.

EQS01BK

EQUINOX

Les angles droits règnent en maîtres dans la collection Equinox. Complément parfait des environnements modernes, elle allie fonctionnalité irréprochable et design saisissant pour ajouter une sophistication contemporaine à toute salle de bain.

Right angles reign in the Equinox collection, creating streamlined drama for the most modern of environments. A fusion of engineering functionality and striking design creates a seamless flow with contemporary sophistication and brings an impressionistic aesthetic to the bathroom.

NIBI

Phare de beauté. La collection Nibi s'inspire de la forme conique et fuselée d'un phare. Tel un guide dans l'océan, le phare est une icône de l'architecture, un point de repère, une merveille d'ingénierie et une métaphore pertinente pour la collection. Ses puissantes lignes géométriques, droites et solides, créent une structure moderne et une esthétique urbaine industrielle. Le tout est contrebalancé par une base arrondie qui rappelle la silhouette classique du phare et qui confère caractère, aplomb et substance à la collection.

Beacon of beauty. The Nibi Collection takes its inspiration from the conical, tapering form of a lighthouse. Oceanic beacon, architectural icon, landmark and engineering marvel, the lighthouse is an apt metaphor for the Collection. Strong geometries of straight, steady lines create a modern structure with an urban industrial aesthetic. All is offset by the rounded base that harkens back to the classic lighthouse silhouette, giving this Collection solidity, substance and meaning.

ODE

L'équilibre entre profil, proportions et performance définit la collection Ode. La rencontre géométrique d'un cercle et d'un carré aux dimensions égales crée un design aux allures d'art moderne. La base circulaire se fusionne avec harmonie au bec. Une poignée en angle se juxtapose à l'ensemble, chaque élément visant à rehausser la performance et l'élégance.

A balance between profile, proportion and performance defines the Ode collection. The geometric meeting of circle and square is calculated to equal measurements, for a design with the look of modernist art. A round base merges with a rectangular spout. The whole is juxtaposed by the angled handle, so that each element has a purpose to enhance performance as well as elegance.

PALLACE

La collection Pallace marie les courbes et les lignes à la perfection pour créer de véritables œuvres d'art. Cette collection intègre les plus récentes avancées technologiques. Elle allie forme et fonction irréprochables pour offrir des résultats spectaculaires. La collection Pallace ajoute une touche sculpturale unique aux salles de bain contemporaines.

Curve and line come together in an outstanding example of modern sculpture. The Pallace collection is truly original—a design of substance and style that commands attention. Brilliantly engineered for outstanding performance with the latest technological advances, this is a collection where form and function marry with superb results. Pallace has definitive allure for contemporary bathrooms.

PARABOLA

Une courbe symétrique et des lignes épurées maximisent le reflet de la lumière dans le milieu environnant. La collection offre bien plus que de l'équipement de robinetterie de pointe : son design inspiré d'une parabole évoque l'élégance et la simplicité. Sa conception exceptionnelle garantit un fonctionnement et une durabilité incomparables.

The symmetry of the curve and the geometry of the line result in an artful innovation that maximizes the reflection of light. Inspired by the design of the parabola, the collection is more than brilliant faucetry—it's an experience, creating a waterfall effect of elegance and simplicity. And its engineering excellence makes for expert performance and durability.

REFLET

La dualité de l'eau se reflète dans les silhouettes aussi épurées que distinctives de la collection Reflet. Enchâssées dans un cadre solide qui rend hommage à la puissance de l'eau, les courbes exquises des surfaces rappellent pour leur part le gracieux ondolement des vagues. Les finis brossés et polis se conjuguent à merveille afin d'évoquer la multitude de textures que le tumulte des flots peut sculpter, éroder ou polir au fil du temps.

The simple yet distinctive shape of the Reflet collection is intended to reflect the contrast of water. The design encapsulates a soft wavy surface embedded within a rigid frame, balancing the elegance and the power of water in one single collection. This duality is enhanced through the combination of brushed and polished surfaces that conjure the myriad textures created by water as it sculpts, polishes and erodes the materials around it.

RIU

La beauté discrète de la collection de robinets Riu en fait le choix par excellence pour les environnements industriels urbains et les espaces minimalistes. Cette collection raffinée rehausse à merveille les salles de bain de style transitionnel. Personnalisez son apparence en fonction de votre décor, en choisissant une poignée droite ou en croix, et l'un des cinq finis offerts. En plus d'offrir un design épuré, les robinets Riu se distinguent par leur fonctionnement et leur conception technique irréprochables.

The simple beauty of the Riu faucet collection makes it a natural for urban industrial settings and minimalist spaces. And Riu can fit transitional bathrooms with subtlety and grace. You can personalize the look with a cross or level handle, and one of five finishes. Behind Riu's sleek form is functionality with engineering brilliance, creating a stand-out piece that performs.

SALOMÉ

Évoquant les vagues de l'océan, la collection Salomé rehaussera le décor de toute salle de bain. Sa simplicité transcende les époques, ce qui en fait un choix naturel à la fois pour les espaces contemporains et les décors transitionnels ou traditionnels. La conception ultrarigoureuse de cette collection garantit un fonctionnement à la hauteur de son apparence majestueuse.

Shaped like the curl of an ocean wave and releasing a soft cascade of water, the singular style and simplicity of the Salomé collection transcend time, making it a natural for the most contemporary of spaces, for transitional settings, even traditional decors. And superlative engineering ensures that it performs as beautifully as it looks.

VENTY

Quintessence du design moderne, la collection Venty est fonctionnelle, élégante et épurée. Elle apporte une allure nuancée aux salles de bain minimalistes et de style transitionnel, tout en garantissant un fonctionnement optimal et une grande durabilité. Sophistiquée dans sa simplicité.

Venty offers an iconic modern design that is functionally sleek, engineered in streamline form. The subtle tilt of the neck and the straight line of the handle demonstrate its contemporary beauty. Sophisticated in its simplicity, Venty brings nuanced allure to minimalist and transitional bathrooms alike, with the promise of high performance and lasting durability.

ZENDO

Intégrez à votre salle de bain une cascade fluide et élégante qui éveille les sens et offre une expérience de luxe avec la magnifique collection Zendo. Ses lignes caractéristiques et ses angles affirmés créent un style novateur et contemporain. Grâce à ses avancées techniques, la collection Zendo offre un fonctionnement inégalé.

Invite a waterfall into your bathroom with the boldly designed Zendo. Strong lines and angles come together in a fresh, contemporary style. Inventive functionality creates a graceful, flowing cascade of water for a singular, sensate experience of luxury. Innovative engineering delivers technologically high performance for modern, eclectic and transitional bathrooms.

DISTINCTIVE FEATURES

QUALITY AND DURABILITY

Riobel provides products of superior quality, backed by a limited lifetime warranty.

EASE OF INSTALLATION

Riobel faucets are designed for easy installation, access and maintenance.

TIME-TESTED FINISHES

All Riobel products in brushed nickel, polished nickel, brushed gold and stainless steel are treated with a high-tech coating (PVD) to protect them from tarnishing, discoloration, scratching and corrosion.

GERMAN CERAMIC CARTRIDGES

We equip all our dual-handle lavatory and bathtub faucets with German ceramic cartridges to ensure durability and optimum performance.

WARRANTY

We offer a limited lifetime warranty on our chrome, brushed chrome, brushed nickel (PVD), polished nickel (PVD), brushed gold (PVD), black and stainless steel (PVD) finishes and parts, starting from the date of purchase and against any manufacturing defects. Other finishes are protected by a one-year limited warranty.

CERTIFICATIONS

Riobel products are certified by, and are in compliance with, the following standards: ASME A112.18.1, CSA B125.1, CMR 248, ASSE 1016, NSF 61 and NSF 372. These standards are listed with IAPMO.

ECOLOGICAL PRODUCTS

At Riobel, the environment is very important to us. That's why we have equipped most of our lavatory faucets with efficient aerators to reduce their flow to 4.5 litres (1.2 gallons) per minute. In addition, we are working to develop environmentally friendly packaging for our products.

THE STORY OF A LIFE WELL CRAFTED

INTERESTING LIVES LED AND CURATED WITH THE HOUSE OF ROHL®

At House of Rohl® we are on an endless journey for the finest in artisanship, craft and technical prowess. We see the potential in stone and clay, brass and steel, poured and casted, glazed and fired, and the transformation into the finest of fixtures. We pursue rare beauty and inspired design that has a unique perspective and provenance.
